## ALLOWANCE

This action is responsive to Applicant's amendments and arguments of 5/20/2006, which have been entered into the electronic file of record.

### *Allowable Subject Matter*

Claims 19-35 and 37-40 are allowed.

The following is an examiner's statement of reasons for allowance: Firstly, claims 19-33 have been previously allowed for reasons that have been made clear in the Office Action of 2/27/2006.

The prior art of record fails to teach or fairly suggest an arrangement of communication wherein an individual has a transmitter for transmissions within a facility, receiving personal identification information into one of a set of stations within the facility, receiving monetary deposit information for the individual, receiving transaction information from a cashless station located within the facility, scanning the transmitter with the individual physically located at the cashless station in the facility, and creating transaction reports therefrom.

The rejection which had previously been made on certain claims was based users making purchases on mobile devices such as a cell phone or PDA, which involves interchange with a cashless station (namely a cell phone tower) to complete transactions. Group credit accounts are known. However, as the Applicant points out in the most recent arguments, this is overcome by the present amendment which requires, among other things, that the individual be physically located at cashless stations where they perform their transaction, and that the cashless stations be

located within a particular facility. Cell phone towers are not located within a particular facility and users are not present at the towers to make transactions using their phones.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
